A Trade Partner Built for Accessible Travel in East Africa

Accessible Travel Kenya (ATK) gives travel agents and outbound tour operators a licensed, experienced, and trusted partner for wheelchair-accessible logistics across East Africa — with the fleet capacity to fulfil bookings other operators have to turn away.

Capacity | **Licensed** | **Experienced** | **Trusted**

Accessible Travel Kenya · Nairobi, Kenya · Licensed by the Tourism Regulatory Authority

WHO WE ARE

A Specialist, Not a Sideline

Accessible Travel Kenya is a specialized hospitality logistics and inclusive travel company based in Nairobi, serving East Africa. We are licensed by the Tourism Regulatory Authority, and our fleet, partnerships and staff training are built around one mission: making travel and transport genuinely usable by everyone.

For travel agents and outbound tour operators, that means a ground partner who can confidently confirm accessible bookings — not just attempt them.

WHO WE ALREADY SERVE

Persons with disabilities

and organizations that represent them

Seniors & medical patients

needing dignified, safe transport

Corporates & NGOs

staff logistics and inclusive events

Hotels & tour operators

referring guests with accessibility needs

International tourists

seeking accessible safaris in East Africa

WE HAVE CAPACITY

Six Owned Vehicles, Ready to Book

ATK owns and self-funds a core wheelchair-accessible fleet — giving agents a single point of contact for confirmed capacity, not a broker's best guess.

ALSO IN OUR NETWORK

Commuter Buses

13–16 seater Hiace vans · 22-seater Coasters · 33–44 seater Mercedes buses

Electric & Hybrid

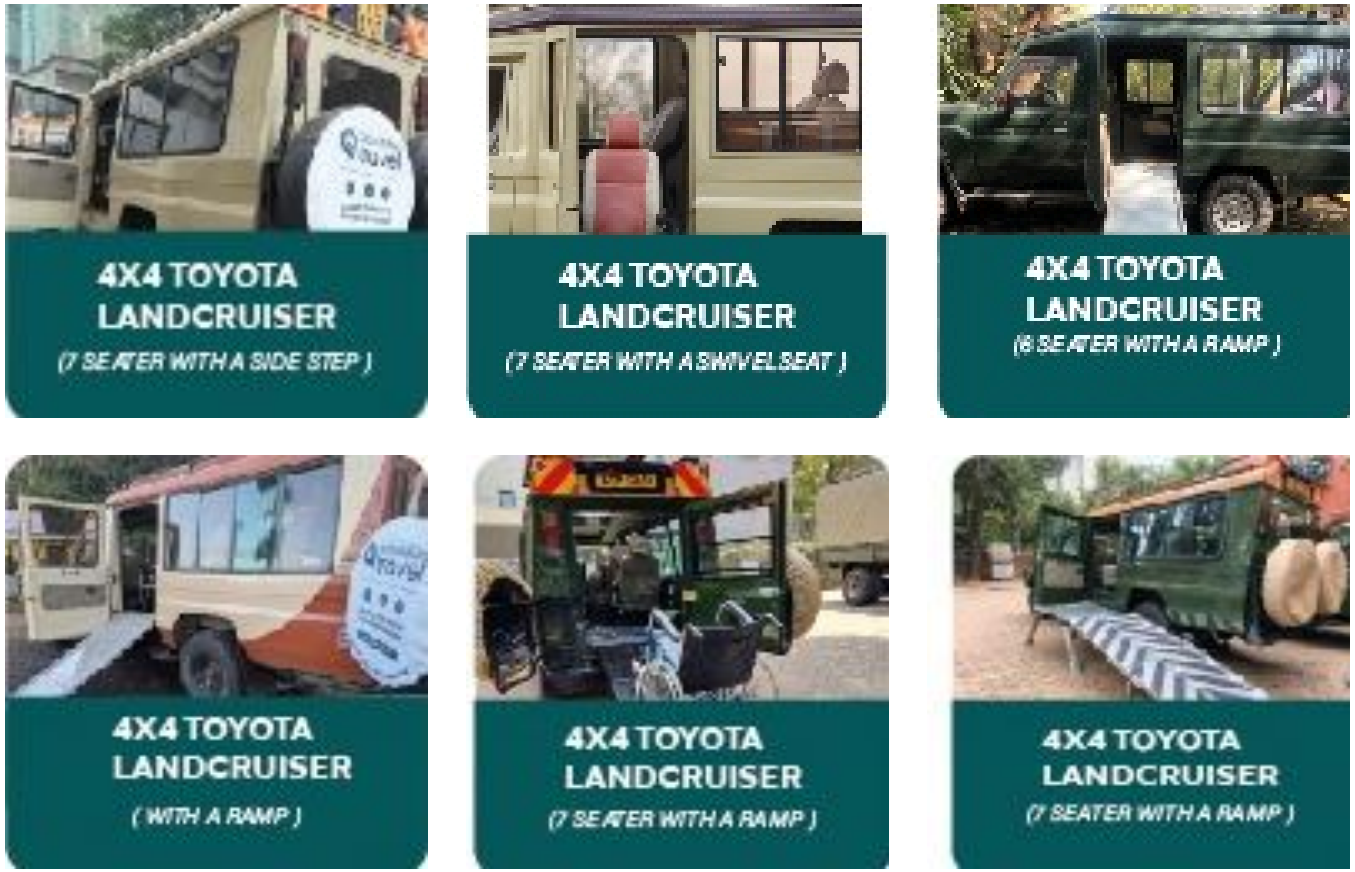

Saloon cars, mini vans and buses for climate-conscious corporate clients

Plus a dedicated safari-adapted 4x4 fleet — see next page.

WE HAVE CAPACITY

A Dedicated Safari-Adapted 4x4 Fleet

Off-road wheelchair-accessible Land Cruisers are rare across East Africa. ATK's safari-spec fleet is purpose-built for national-park transfers, multi-day safaris and rural outreach — with rear-entry, side-entry, ramp and swivel-seat configurations to match each guest's needs.

WE HAVE CAPACITY

Mobility Equipment, Available by the Day

Simple daily rates for extra support — wheelchair rental, ramp hire and caregiver support for travelers and event guests who need more than a vehicle alone can offer.

LICENSED & CREDENTIALED

Operating on the Record, Not Just on Paper

ATK holds a national tourism license and recognized international accessible-tourism credentials — giving agents and operators a compliant, auditable partner to place clients with.

INDUSTRY AFFILIATIONS

- Tourism Regulatory Authority — licensed operator
- Pantou Listed Supplier (global accessible-tourism directory)
- Member, European Network for Accessible Tourism (ENAT)
- Magical Kenya Medical Tourism Product Club
- Member, Ecotourism Kenya
- Kenya Airways "KQ Ezesha" partner for accessible transfers
- Ground transfer partner for Safarilink PRM transfers at Wilson Airport

NEW: KENYA BEYOND SIGHT

ATK has signed with KCB Bank Kenya and the Kenya Tourism Board (KTB) as the mobility and logistics partner for a national, bank- and government-backed accessible-tourism initiative.

BUILDING WORKFORCE CAPACITY

A Basic Kenyan Sign Language (KSL) training program with Horizon Sign Language Training Centre equips tour operators, guides, receptionists and cabin crew — and matches graduates to paid roles across Kenya's tourism industry.

EXPERIENCED

A Team That Has Done This Before

ATK's leadership and crew bring direct experience in disability inclusion, tourism operations and hospitality logistics — not a fleet run by generalists.

MK

Muthuri Kinyamu

Founder

Champion of disability inclusion in aviation, tourism & hospitality · Board Member, Ecotourism Kenya & Magical Kenya Medical Tourism Product Club · BCom Marketing, MSc Entrepreneurship & Innovation Management (UoN) · Trained in Kenyan Sign Language & disability rights

Beyond Kenya: a colleague based in Uganda supports cross-border coordination, and a trusted DMC in Tanzania handles ATK's group logistics there.

CREDENTIALED FOR CARE ON THE ROAD

BLS & First Aid

Drivers and guides trained in Basic Life Support and first aid

Disability Etiquette

Guides trained in disability etiquette for respectful, confident service

Sign Language Interpreters

Safari interpreters fluent in American & British Sign Language

TRUSTED BY THE INDUSTRY

A Track Record Agents Can Check

ATK already works across tourism, aviation, disability advocacy, healthcare and faith-based sectors — the kind of diversified client base a trade partner can verify.

Inclusive Meetings

End-to-end accessible logistics for conferences & events

Electric & Hybrid Fleet

Eco-friendly transfers for climate-conscious travelers

WHY ATK

The Trade Partner for a Market Others Miss

A market others overlook

15% of the world's population lives with some form of disability (WHO). ATK is one of very few East African operators built specifically to move them safely and confidently.

Capacity, not just intent

Four self-funded, wheelchair-accessible vehicles plus a coordinated 4x4, bus and electric partner network mean ATK can confirm bookings your other ground partners can't.

A defensible head start

TRA licensing, disability-friendly conversions and recognized international accessible-tourism credentials give ATK a specialization competitors would need years to replicate.

Built for referral relationships

Existing partnerships with Kenya Airways, hotels and DMCs show ATK already operates inside the trade — not as a startup experiment.

INDUSTRY PRESENCE

On the Ground at the Events That Matter

ATK shows up where the trade and the disability-inclusion community meet — building the relationships and visibility behind every referral.

CONFERENCES

- Rare Diseases International — Kenya meeting
- Inclusive Africa
- The Joint Conference on Social Work, Education and Social Development
- Climate Retreat
